Revision: 13

The Safe System approach acknowledges that human error occurs and makes allowance for this error in the design of vehicles and roads. However, it also relies on road users being responsible.

The following pages contain information to assist and improve understanding of the needs of all road users with a particular focus on vulnerable road users. This also includes awareness programs and materials to encourage safer people and safe behaviours.

- [Pedestrian Safety](#)
- [Bicycle Safety](#)
- [Motorcycle Safety](#)
- [Young/Novice Driver Safety](#)
 - [Review of ACT Graduated Licensing Scheme](#)
- [Older Driver Safety](#)
- [Impaired Road Users](#)
- [Heavy Vehicle Safety](#)
- [Road Safety Advertising](#)
- [Road Safety Brochures](#)
